

Your trusted partner in private homecare

As a healthcare professional, your dedication to your patients extends beyond their time in your care. Referring patients to Ellea Nursing allows you to take your support beyond the clinic or hospital and bring it directly into the homes of those who need it most.

At Ellea Nursing, we support people with a wide range of health needs - from the highest levels of clinical complexity to compassionate companionship care. Our personalised, professional approach ensures every patient receives the right care, delivered safely and with dignity, wherever they call home.

Why choose Ellea Nursing?

Robust clinical governance

Overseen by more than 140 clinicians, we're experienced in delivering safe and consistent patient-led quality care in hospitals, in the community and at home.

Unrivalled access to healthcare expertise

With over 2,600 nurses - including ITU specialists, we provide world-class private care nationwide for complex and intensive needs.

Flexible, scalable care on demand

We're experienced in providing 1:1 care, all the way to 6:1 care, helping patients and their families for as long as they need our support, no matter how complex their healthcare needs.

24/7 clinical support

There's no worry too small or request too big when it comes to our care. Our clinical support team is on-hand for clients, their families, and clinicians around-the-clock.

Exceptional five-star service and support

Our nurses and carers are trained in outstanding patient experience, ensuring every interaction is compassionate and tailored to individual needs.

Our clinical expertise

At Ellea Nursing, we bridge the gap between hospital and home, delivering hospital-level care to patients with complex needs in the comfort of their own surroundings. From supporting timely hospital discharge to ongoing complex care, we can start urgent care packages within 24 hours, often same day.

IV therapies and infusion management

IV medications, central line care and complex treatment regimens delivered at home

Neurological care

Specialist support for MND, MS, Parkinson's, stroke, and brain and spinal injuries
